

Furniture for learning

Encouraging agile minds

Designed to encourage rich collaborative teamwork, T Tables come in a range of shapes, sizes and capabilities. Choose the T Table that best supports your learning style, then add the capabilities you require like mobility, tilt to store or power/data access.

T1 Table

T1 Table comes standard with big radiused corners because these tables are designed to move and manoeuvre. Deploy singularly to seat six or group creatively around our HITCHING Post to conveniently access power/data outlets. T1 Table comes with several support options, legs on brake castors, tilt frames for compact storage and push button seated to standing height adjustability. [More](#)

T2 Table

Featuring a tried and true work top shape, T2 Table nests in a pod of two to seat up to six people or deploys end to end to form curves or linear arrangements. When deployed singularly T2 Table comfortably seats four people. Combine with our HITCHING Post to conveniently access power/data outlets. [More](#)

T3 Table

T3 Table is an innovative response to the significant research on optimising collaborative learning environments. Deploy singularly to seat up to five people or nest three tables together to seat up to nine. T3 Tables come with several support options, legs on brake castors, tilt frames for compact storage and push button seated to standing height adjustability. Group around our HITCHING Post to conveniently access power/data outlets. [More](#)

T4 Table

T4 Table provides a 'soft' option to the traditional rectangular table seating up to six people. T4 Table is designed to group around hitching posts to form 'petal' pods, as well as comfortably snuggling before large shared monitors to optimise viewing angles for students. Frame options include legs on brake castors or tilt frames for compact storage. [More](#)

T5 Table

T5 Table is spontaneous, adaptive and mobile, designed for up to six people and featuring faceted sides which provide an attractive alternative to round tables. T5 Table comes with two support options, legs on brake castors, and push button seated to standing height adjustability. Combine with our HITCHING Post to conveniently access power/data outlets. [More](#)

T6 Table

T6 Table is spontaneous, adaptive and mobile, designed for up to three people and suited to snuggle together in random creative pods for larger groups. These small tables work well with the larger tables in the T Table Range adding choice and variety to your learning space. [More](#)

T7 Table

T7 Table is a pert round table, adaptive and mobile, designed for up to three people. These small tables work well with the larger tables in the T Table Range adding choice and variety to your learning space. [More](#)

T8 Table

T8 Tables are 'curvaceous squares' designed to move and manoeuvre, seating up to four people. T8 Tables 'snuggle' in spontaneous pods clustering around our HITCHING Post to conveniently access power/data outlets. [More](#)

T9 Table

T9 Tables are highly adaptive and highly mobile, ideal for learning spaces where a more organic feel is required. T9 Tables singularly seat up to five people and are designed to nest in pairs to create a larger interactive work top. [More](#)

Ideal for use with T Tables

Height adjustable GLO Teacher Station

GLO Teacher Station enables teachers to relocate within their teaching space at will, to engage naturally with individuals, groups or multiple groups. At the touch of a button, work comfortably either seated or standing and respond to the demands of the day. The cantilevered desktop 'oval' provides an inviting space for student/teacher interaction. [More](#)

HITCHING Post

HITCHING Post brings power (and data outlets if required) from walls or floor boxes mounting outlets at a safe, easy access height. Highly mobile HITCH conveniently brings services to support devices on T Table clusters, Study/Workstations and our informal learning furniture range. [More](#)

How does learning happen at your place?

PAUL WHITE

Founder and Director of Design

"Learning is the foundation of living, and as designers we are privileged to work with educationalists, exploring the emerging paradigms in this vital field. Good design comes from understanding and we would love to hear how learning happens at your place. I invite you to contact me directly."
